

Presentation Instructions for IEVC2007

We appreciate your cooperation and assistance in advance. If you have any questions, please feel free to ask the workshop office.

Presentation Language

Oral and Poster presentations must be prepared and delivered in English.

Presentation Time

All oral presentations for papers will be limited to a total of 20 minutes including the time for questions/comments from the audience. It is absolutely essential that speakers keep on time to allow attendees to move among the concurrent sessions.

Presentation Slides

All oral presenters will be expected to make electronic presentations. It is recommended for presenters to prepare their note computers. We also ask the presenters to bring their presentation files by USB memory just for safety. If you have some difficulties to meet these conditions above, please contact the workshop office.

Please pay attention that over-head projectors are not available.

Presentation Posters

The board area provided to each poster presenter is 120cm (Hor.) x 180cm (Vert.). The poster will be attached on the cloth board by pins. A small size presentation desk will be available with limited quantity.
