

The 5th IEEEJ International Workshop on IMAGE ELECTRONICS AND VISUAL COMPUTING 2017 (IEVC2017)

SPECIAL POSTER SESSION

**FPT Complex / FPT City Da Nang
Da Nang, Vietnam/ Feb. 28-Mar.3, 2017**

Purpose: The International Workshop on Image Electronics and Visual Computing 2017 (IEVC2017) will be held in Da Nang, Vietnam, on February 28–March 3, 2017 as the 5th international academic event of Image Electronics Engineers of Japan (IEEEJ) based on the great success of IEVC2007 held in Cairns, Australia, IEVC2010 held in Nice, France, IEVC2012 held in Kuching, Malaysia, and IEVC2014 held in Koh Samui, Thailand. The aim of the workshop is to bring together researchers, engineers, developers, and students from various fields in both academia and industry for discussing the latest researches, standards, developments, implementations and application systems in all areas of image electronics and visual computing.

FPT Complex / FPT City Da Nang

Late-breaking paper submission (Special poster session) : Prospective authors are invited to submit a final paper (1-2 pages) including results, figures and references. The first page of the paper should include author name(s), affiliation, and a short abstract. The official language is English and authors should submit their papers as PDF through the online submission system at <http://www.kodama.com.hiroshima-u.ac.jp/iieej/IEVC2017/>. The paper submission guide and MS Word format will be also provided at this site. The organizing committee particularly encourages graduate students to present their works in the special session that is now planned by the committee of the workshop.

Topics covered include but are not limited to:

- Image and video coding; Transcoding, Coding standards and related issues
- Image and video processing; Image analysis, Segmentation and classification, Image recognition
- Image restoration; Super-resolution, Color restoration and management
- Computer vision; Motion analysis
- Computer graphics; Modeling, Rendering, Visualization; Animations, Interaction, NPR
- Virtual reality, AR, 3D imaging and Drone application
- Data hiding; Watermarking and steganography, Content protection
- Bioinformatics and authentication; Computer forensics
- Image database; Image and video retrieval, Digital museum, Digital archiving, Content delivery;
- Image assessment; Image quality
- Printing and display technologies; Imaging devices, Digital signage, Electronic paper
- Visual communication; Human interfaces and interactions
- Mobile image communication, Networking and protocols, Optical communication
- Hardware and software implementation; Image related applications, LSI

My Khe Beach (Da Nang)

Important dates for special poster session :

Paper Submission Due:	December 22, Friday, 2016
Notification of Acceptance:	January 9, Monday, 2017
Camera-Ready Papers Due:	January 16, Monday, 2017
Early Registration Due:	January 16, Monday, 2017
